Hi Casey, I have good news!

I managed to get the future prices and dental plan information earlier than I expected.

Here are the new dental prices for the plan with a \$3000 yearly benefit maximum

Single employee \$46.51
Single with Spouse \$87.88
Single parent Family \$110.22
2 Parent Family \$163.19

The percentages of coverage are the same as the attached plan brochure except with \$3000 instead of \$2000 per year limit.

This plan will be the only one available after July 15th

The current \$2000 max plan is still available until July 15th, but it joins the dinosaurs and becomes unavailable to get after that point. The good news is that if you get the less costly one before that, it is grandfathered in and the price remains the same forever.

To review, those price points are below:

Single employee \$33.15
Single with Spouse \$62.32
Single parent Family \$78.86
Two parent Family \$115.88

Please review and let me know where you would like to go from here.

Thanks,
Dan Aubol
